

Dear host family,

Thank you for providing me accommodation. I am so excited that I have chance to be a potential family member in your family to engage American culture education system and local life. I would like to tell you something about me in this letter.

My Chinese name is Zhangyanchun and my English name is Stephanie. I am living in Fuzhou now. Fujian province is a medium size city with a population of seven billion. Fuzhou is a beautiful coastal city which is located in southeast of China. It is known as hot spring city. We can enjoy hot spring spas in both urban and suburb areas.

There are four family members in my family, my father, my mother, my younger sister and me. I love my family because they always support any decisions I made. I love dancing, traveling and talk to people. I go to the POP dance classes three times a week.

I used to be a tour guide and tour leader who has traveled 16 countries. Being a qualified tour leader requires me to speak English well. Not long, I realized that English can not only expand my horizon, but also explore this world widely and deeply. I expect that my ideal and experience can be shared with other people by teaching. I quit my job and made my career as an English teacher. I have been teaching kids whose age are from 7 to 15 for 3 years. I am running a English studio which provides children with different kinds of courses. I even

organize summer camps for them.

During these three weeks, I promise you that I will abide family rules and can help you do some housework (like cook Chinese food, clean the room.... )

Thank you for reading this letter, I am looking forward to seeing you soon.

Best regards

Stephanie
